

# BLOOD STOP POWDER

DIN 00236306

Blood Stop Powder is indicated to check bleeding of minor cuts and wounds. Apply freely to the wound area. Bandage in place if necessary. After bleeding has stopped, apply again to prevent further bleeding. Do not disturb the scab formed, as this might start the bleeding process again.

Presentation:

60 gram; 25 bottles/carton

200 gram & 400 gram bottles

12 bottles/carton

# D-HORN PASTE

DIN 00654094

To prevent horn growth and remove horn buttons on calves. Apply a thin film on horn buttons as soon as they can be felt. Isolate calves for 30 minutes to prevent paste removal by rubbing. Protect calves from rain and snow for 6 hours.

Presentation/Packing:

85 gram squeeze bottle; 25 squeeze bottles/carton
