

ANTISEPTIC IODINE SPRAY

DIN 00496200

Antiseptic Iodine Spray contains an iodine complex which provides the active iodine in a non-staining, non-stinging form upon topical application. The alcohol base aids in producing a quick drying product, which does not delay wound healing. As an aid in the treatment and control of bacterial infections of superficial wounds, cuts and abrasions, navel stumps, dockings, and castration wounds. Also for disinfection of skin areas prior to injections or surgical procedures.

Presentation/Packing:

500 ml bottle; 12 bottles/carton

4L jug; 4 jugs/carton

FIRST AID AND WOUND

STRONGER IODINE TINCTURE

DIN 00349704

As an antiseptic for topical use, a counter-irritant in chronic inflammatory conditions and as a parasiticide in ringworm. May be used as a pre- and post-operative dressing. For superficial cuts, abrasions, insect bites, or bruises, cleanse with soap and water, apply lightly, not more than once daily. If repeated, dilute with 3 volumes of water. Do not bandage.

Presentation/Packing:

500 ml bottles; 12 bottles/carton

4 Litre jug; 4 jugs/carton
