**INDICATIONS:**  
 An aid in the treatment of lymphangitis, azoturia and heavy or scanty urine of horses.

**FEEDING INSTRUCTIONS:**  
 In mild cases, horses may be given 3 teaspoonfuls of this powder once or twice a day, on the tongue or in their normal feed for three days or until the condition is relieved. In severe cases, it is recommended that a veterinarian's advice be sought. If veterinary advice is not immediately available, a teaspoonful of this powder may be given once before a veterinarian's examination.

**NITRO OINTMENT**  
 DIN 00334308

As an aid in the treatment of topical bacterial infections associated with some bacteria susceptible to nitrofurazone in horses.
